## Day-O-Lite Product Conformance to the Buy American Provision and the American Recovery and Reinvestment Act (ARRA)

Section 1605 (A) of ARRA states that:

(a) None of the funds appropriated or otherwise made available by the Recovery Act may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work (as defined at [22.401](#)) unless—

- (1) The public building or public work is located in the United States; and
- (2) All of the iron, steel, and other manufactured goods used as construction material in the project are produced or manufactured in the United States.
  - (i) Production in the United States of the iron or steel used as construction material requires that all manufacturing processes must take place in the United States, except metallurgical processes involving refinement of steel additives. These requirements do not apply to steel or iron used as components or subcomponents of other manufactured construction material.
  - (ii) There is no requirement with regard to the origin of components or subcomponents in other manufactured construction material, as long as the manufacture of the construction material occurs in the United States.

Day-O-Lite confirms that all Day-O-Lite products meet the requirements above and are compliant to the Buy American Provision and the American Recovery and Reinvestment Act. All of our products are manufactured goods since they are manufactured and assembled in our only facility located in Warwick, RI.

Day-O-Lite goes above and beyond these requirements. Not only are our products manufactured and assembled in our Warwick, RI facility, but all Day-O-Lite products are designed and engineered at this location in the United States as well.

The use of foreign components in all of our products is such that within our comprehension of the law, we are in compliance with the Buy American Provision and ARRA. In fact, Day-O-Lite strives to work with local suppliers, which Day-O-Lite defines as being located on the east coast of the United States. Over 90% of our suppliers fall under this definition of a local supplier.
